## Urge Small To Resist Warrants For Arrest

Illinois Governor and Associates Indicted by Illinois Grand Jury.  
PROTESTS HIS INNOCENCE

Advisors Want Governor to Hide Behind His Jurisdiction as Chief.

By United Press Leased Wire  
Springfield, Ill.—Gov. Len Small Thursday began his fight against indictments charging him with conspiracy to defraud the state of millions of dollars.  
Attorneys for the state executive appeared in the court of Judge E. S. Smith and asked permission to present arguments that the governor is not subject to arrest on charges by state courts.  
The court granted the motion and arguments will be presented starting at 9 a. m. tomorrow.

Attorneys for Lieut. Gov. Fred Sterling and Vernon Curtis, indicted with the governor, appeared in court and demanded reduction of bond. The bond was fixed at \$50,000 for each Sterling and Curtis, a reduction of \$100,000 for the lieutenant governor and \$50,000 for Curtis.

Springfield, Ill.—Gov. Small, under indictment on charges of misuse of millions of dollars of state money, was advised by his attorneys Thursday to resist arrest and trial.

The executive was urged to refuse to submit to arrest on the grounds that he was the state's chief official and therefore should not be subject to the rule of the courts of Sagamon county.

Attorneys for the government were ready to present their arguments on this ground to Judge Smith of Circuit court, if the governor agreed to the plan. No indication of whether the governor would agree to the scheme, was forthcoming from the capitol during the morning.

However, as early reports stated the governor would appear at 9 a. m. to give bond, with Lieut. Gov. Fred Sterling and banker Vernon Curtis, alleged coconspirators, indications were as the time was long passed that hour that the executive had accepted his counsel's advice.

Bitter Fight Expected  
In case the governor should decline to go to trial and the court should overrule his contention, a bitter battle in which the governor would have the right to call state troops to protect himself, was in prospect. However, this was considered a remote possibility. A direct appeal to the supreme court for a ruling on the power of the court compared with the governor's jurisdiction, was in prospect.

Small's attorneys pointed to two precedents for their proposed resisting arrest. Two former governors of the state, when accused of less serious charges, declined to submit to arrest, and the cases were never pressed.

Conferences between the governor's attorneys were in progress practically throughout the night and during the entire forenoon.  
The Pikers enter the last stages of their home stretch tomorrow when they leave in their cars for St. Ignace.

One thousand Knights of Columbus of Detroit were aboard the Naronic.

Small was accused, with Lieut. Gov. Fred E. Sterling and Vernon Curtis, a Grant Park Ill., banker, of juggling (Continued on Page 10)

### CHARGE EFFORT OF MINERS TO INCREASE COAL COSTS

By United Press Leased Wire  
Washington.—Charges that mine owners of Illinois, Indiana, Ohio and western Pennsylvania conspired with the miners to monopolize the West Virginia coal fields and "destroy their competitive advantage" were made by counsel for the operators Thursday at the senate inquiry of the Mingo mine war.

Counsel for the operators read into the record a report of a conference between union officials and operators at the central competitive field at which an agreement was entered into. According to this agreement the operators raised wages and shortened working hours with the understanding that the miners were to unionize the West Virginia and Kentucky fields in order to increase their cost of production.

### FAKES KIDNAPING TO GET \$50,000

By United Press Leased Wire  
Sharon, Pa.—Thomas Randolph, alleged "self abductor" was offered a chance Thursday to deny in court that he plotted to obtain a ransom of \$50,000 from his father.  
With the entire surrounding country excited over the sensational "kidnaping" the ensuing demand for a \$50,000 ransom, the "victim's" pleas that the money be sent to save his life and finally Randolph's sensational flight and surrender late Wednesday, Randolph himself lay listless and exhausted on a jail cot.  
The district attorney will ask his detention in connection with the police report that he and a Pittsburgh woman registered at a Stonesboro hotel under assumed names. A charge of conspiracy is also being considered, it was learned.  
Randolph's defense is expected to be temporary insanity.

### FIND TWO HEADLESS BODIES IN THICKET

Jonesboro, Ark.—The mystery surrounding the murder of an unidentified woman and a girl about 11 years old, whose nude and headless bodies were found, was probed by a coroner's jury here Thursday.  
Hunters, stumbling through dense undergrowth on the banks of a bayou, came upon the bodies. The head of the little girl was completely severed and lay some distance from the body. The woman's head was nearly severed and knife wounds pierced her body. The underbrush showed signs of a struggle.  
Owing to the condition of the bodies positive identification is believed impossible. Townsfolk of Webb's Mill say the women may have been a mother and daughter named Calhoun, who lived there until three months ago and then moved to Paragould, Ark. The scene of the crime yielded no clue to the slayers.

### SPIGOT IS CLOSED BUT MONEY LEAKS OUT AT BUNGHOLE

Harding May Be Forced to Tell Congress to Cut Out Spending.

By DAVID LAWRENCE  
Copyright, 1921, by Post Pub. Co.  
Washington.—President Harding may have to take another trip to the capitol or in some other way apply the brakes to the tendency of congress to appropriate for new purchases all the money that has been saved by the careful pruning of the budget. The senate is in a snarl again. Although Mr. Harding pleaded with his former colleagues to sidetrack not on the bonus but other legislation excepting the tariff and taxation, the bill providing \$100,000,000 to finance farm exports now is up for consideration. It means, if passed, a spending of exactly the amount which C. G. Dawes, director of the budget, announces has been saved. In other words just as fast as a saving is accomplished at one end of the national capital means of spending an equivalent amount are found at the other end. And on top of it all the new shipping board finds it necessary to ask for \$300,000,000 to salvage the wreck on its hands. Thus the president finds himself in the awkward situation of appealing to congress directly or indirectly to concentrate on the tax program and let alone other matters.

### WILL INVESTIGATE JAP DEPORTATIONS

By United Press Leased Wire  
Turlock, Calif.—Official investigation of the "deportation" of Japanese laborers from Turlock was started Thursday.  
Five "John Doe" warrants calling for the arrest of alleged participants in the "deportation" were brought here by Sheriff Fallas, of Stanislaus county.  
One of the Japanese who claimed to have been driven from the Turlock district was the complainant.  
City officials and government representatives were giving the situation attention in order to be prepared for any official action they may be required to take.  
Nothing has been heard as yet from the Japanese consulate at San Francisco or from the Japanese embassy at Washington.  
All was quiet in Turlock last night although the city was tense and until late in the night groups of men gathered on street corners discussing the day's events. Deputy sheriffs were on guard at many of the larger ranches where Japanese had been employed.

### LABOR CONSIDERING NEW POLITICS BODY

Committee Studies Ohl's Proposal for Formation of Another Party.

By United Press Leased Wire  
Mantowoc, Wis.—Delegates to the Wisconsin Federation of Labor here, are focussing their attention on the forthcoming report of the committee considering the proposal of Henry Ohl, Jr., general organizer, for the formation of a new party in Wisconsin.  
The committee members intimated today the report could be expected at any time with recommendations to the convention as to the future political policy of organized labor in Wisconsin.  
One of two recommendations is expected to be made.  
The committee may ask that a new liberal party be organized with the federation back of the move.  
The report may recommend a continuation of the existing Farmer-Labor alliance but ask that the league extend its activities to other than the legislative offices.

## Retailers Getting Ready For Buying Boom In Fall

By United Press Leased Wire  
New York.—The buying boom is on. Retailers throughout the country, staking thousands that business will take a jump in the fall, are laying in big stocks for the first time in years.  
"Business is bound to take a leap upwards," Alfred Santl, buyer for large department stores from San Francisco to Boston, said Thursday.  
"Garment retailers I represent are placing huge orders. The demand has taken such a sudden upward trend in the last few weeks that we have been forced to double our staff."  
"It is a different kind of a buying from the prewar days. The demand is for staple goods, not fuff. People are going to buy socks, underwear

### Veteran Baseball Player Had Wife and Son in New York and Three Children in Boston.

By United Press Leased Wire  
New York.—Two widows and two families Thursday are mourning the loss of a husband and father in Arthur Irwin, veteran player, manager and baseball scout.  
Irwin, told by physicians after an operation that he had only a few days to live, is thought to have committed suicide last week by jumping off a steamer on his way to Boston.  
Investigation into his disappearance led to the discovery that he had two families, one in New York and the other in Boston.  
His New York family consisted of a wife and a 24 year old married son, F. Harold Irwin. The Boston family numbered a wife, a 37 year old son, Arthur Herbert Irwin, two daughters and nine grand children.  
The Boston widow, who was his first wife, said they were married in 1893. She said that she had never suspected him even though her relatives years ago had insisted that he had another woman in his life.  
Harold Irwin, the New York son, says that his father and mother were married 27 years ago in Philadelphia.  
The New York widow was slow to believe the revelations. She said that in the twenty-seven years he had never been away from home more than a few days at a time when he would make trips to look at young ball players on college teams and in the minor leagues.  
Both widows asserted that their husband wanted to die in their arms. The Boston widow pointed to the fact that Irwin went first to his New York family, divided his personal possessions among them and started for Boston to be with her when he was overcome with pain on the steamer and jumped overboard.  
The New York widow says that Irwin left her to bid goodbye to friends in Boston and was going to return to her.

## JAPAN CLEARS DECK TO ENTER DISARM MEET

Mikado's Government Wants Far East Problems Out of the Way First.

OTHER NATIONS PREPARING

Interest Centers on Japan Because of Hesitancy in Accepting Bid.

By A. L. Bradford  
Washington, D. C.—The great nations of the earth Thursday were "clearing decks" for the Washington disarmament and Pacific conference.  
Within the last 24 hours there has been renewed confidence that Japan will give complete acceptance to coming into the parleys and the arrangements for the dates and discussions of a preliminary program are ready to proceed.  
However, with the question of Japan's participation believed assured, observers today were studying the many interests of the powers and how they will rank in the conference.  
Japan's hesitancy made her the chief figure in this study.  
Fearing that specific Far Eastern and Pacific problems will be brought up in the conference so as to threaten her position in Asia, Japan intends to settle, finally if possible, before the opening of the parley, the principle outstanding questions between herself and other powers.

May Give Back Shantung  
Japan is expected to make an advance to the Chinese government to arrange for the return to China of Shantung, and already she has presented to the United States a compromise plan of settlement of the Yap question. Japan has also sent an envoy to the Chita government of Siberia with conditions for the evacuation of Japanese military forces from Siberia and possibly Manchuria.

Other powers are expected to come into the Washington conference with the following interests foremost in mind: United States—To secure a successful and effective agreement for limitation, and possibly reduction of armaments which will prove a guarantee of the peace of the world by first removing the principal causes of international friction, now mainly in the Pacific.  
Great Britain—To revise her relations with Japan, as exemplified in the Anglo-Japanese alliance to accord with the apparent desire of the peoples of Great Britain and her colonies for closer relations with the United States.  
France—To trade, if possible, a limitation of her large armies for some agreement to secure her against attack by Germany.  
Italy—To continue the close cooperation which has grown up between her and the United States in international dealings.  
China—To remove what the celestial empire regards as the "menace" of Japan and her interests.

Lodge May Be Named  
Senator Lodge, chairman of the foreign relations committee "would not be surprised" his friends said Thursday, if he is named a member of the American delegation attending the disarmament conference.

Lodge, it was learned, senses no reason why his duties as majority leader of the senate should prevent his serving also on the disarmament commission, particularly as it is indicated the sessions are to be held in the senate office building, close to the senate chamber.

### FOUR SALOONMEN ADMIT OWNING BREW OUTFITS

By United Press Leased Wire  
Milwaukee, Wis.—Four of the 13 Milwaukee saloonkeepers recently raided in which miniature breweries were found in the basement of the saloons, pleaded guilty Thursday and were given the minimum fine of \$100. Assistant District Attorney William Zabel, appeared in the case for the state, but made no recommendation as to the amount of the fine to be imposed.  
Four other saloonkeepers have announced they will stand trial for the purpose of testing the validity of the law relative to home brew.

### SEES NEED OF SOLVING PROBLEMS OF FAR EAST

By United Press Leased Wire  
London.—President Harding's proposed disarmament conference will fail if a preliminary conference on the Far East is not held, Premier William H. Hughes of Australia said in an address before the American Luncheon club Thursday.  
It will be necessary, he said, to hold a conference first to settle the Pacific question in which Australia is vitally interested.

### CANNOT AGREE ON BASIS FOR IRISH PEACE DISCUSSION

Lloyd George and DeValera Still Far Apart on Ulster Question.

By United Press Leased Wire  
London.—"The basis for a formal conference has not been found," declared the official government communique issued Thursday after "President" De Valera and Premier Lloyd George had conferred on the Irish situation.  
The two were closeted for an hour. De Valera will go to Dublin tomorrow morning. It was stated by his colleagues. He will communicate with Lloyd George later.  
Sinn Fein will insist that it outranks Ulster, according to a statement by Art O'Brien, after De Valera left Lloyd George.

O'Brien, president of the Irish Self Determination league said De Valera would be ready at any time to meet Sir James Craig, Ulster premier, but that the meeting must take place in Dublin. The statement was in line with DeValera's assertion that he represents all Ireland in the peace negotiations and that Ulster must treat with southern Ireland when peace has been arranged.

"We hardly expected that these conversations would result in a basis for a formal conference," O'Brien told the United Press, "but we are most anxious for peace. We will continue to hold the threads to prevent a breach."

### MORE STUDIOS HIT BY "MOVIE" STRIKE

By United Press Leased Wire  
Los Angeles, Calif.—With \$50 skilled studio workers on strike and two more of the largest producing organizations slated for the "strike list" Thursday, the impending general tie-up of the motion picture industry loomed as an immediate probability.  
The Universal and Brant studios were to go on the "strike list" Thursday, according to an announcement made by Secretary Osterdorf, of the joint strike committee of the central labor council.  
Both these companies are said to have followed the precedent of other producers and reduced wages \$1 a day for electricians, painters and carpenters.  
The Buster Keaton and Hamilton White production studios were the last units to be added to the strike list which already affected Famous Players-Lasky, Goldwyn, Fox Hal Roach, Metro, Realart and Century.  
Walter J. Reynolds, secretary of the Motion Picture Producers' association, was optimistic over the strike situation and predicted that the available nonunion skilled labor would be able to care for the situation.

### "Love Pacifist" Refuses To Take Back Erring Wife

By United Press Leased Wire  
Monticello, N. Y.—Mrs. Emily Durea, run-away wife, came back to sob on her husband's shoulder for ten minutes Thursday and then climbed in the fluster with the "other man" and rode away again.  
The Rev. Clark Durea, love pacifist, kissed his wife and child goodbye for the second time.  
Earl Van Noy, the "other man," sat calmly at the wheel of the car while the woman he had run away with pleaded with her husband to take her and the children back. When he refused Van Noy drove away with her once more.  
The machine with the clopers drove up at the boarding house where the preacher is staying while the village was still asleep this morning.

### Two Employees Forced Into Vault While Robber Seizes Currency — Only Hazy Clews — Three Customers Witness Robbery — Look On While Bandit Works

Outagamie County bank on West College-ave. was robbed of between eight and ten thousand dollars about 1:15 Thursday afternoon by a lone bandit who casually walked through the front door when the lobby was vacant and pointed a gun at Joseph Dohr, paying teller. Mr. Dohr and Miss Monica Kraft, receiving teller, who were the only occupants of the building at the time, readily complied with his demands to throw up their hands and were locked in the book vault. The bandit then took all the currency in sight and disappeared.  
The police were notified as soon as the man left the bank and the city and surrounding territory is being scoured thoroughly by every available officer in an attempt to find the robber. No one appears to know whether he had accomplices outside, or just how he got away. It is not known whether he had an automobile or was on foot. A good description was obtained.

### FRENCH READY TO MARCH IN SILESIA

British and French Near Break Over Situation in Storm Country.

By United Press Leased Wire  
Paris.—French troops were ready to march into Silesia Thursday.  
The Franco-British entente appeared to be approaching a crisis over the Silesian situation. There was strong disagreement on virtually every point.  
The situation was:  
1.—Britain requested that the supreme council meet July 27 to fix the Polish-German boundary in upper Silesia on the basis of the plebiscite, thus ending the dispute over it.  
2.—France, it was semi officially stated—refused to agree to the proposed meeting, but said one could be held early in August after the plebiscite commissions experts have reported on the boundaries. Meanwhile France insists reinforcements should be sent into Silesia.  
There is belief here that Great Britain will refuse to send more troops and that, in that case, France probably will act independently.

The French press today was bitter at the British attitude.  
Premier Lloyd George was attacked being accused of willfulness, blindness and a desire to dominate continental policies.

### BURNS MAKES ERROR IN BLACK SOX TRIAL

Chicago, Ill.—"Black Sox" defense Thursday knocked the first hole in the story of "Bill" Burns, admitted "go between" the sure thing gamblers and alleged crooked baseball players.  
Burns, who turned state's evidence against the seven former stars of the White Sox, charged with selling out the 1919 world series, broke under the rapid fire questioning of Attorney Michael Ahern.  
After a volley of questions, Ahern shouted:  
"Did you see the players the evening after the first game?"  
"No," answered the witness.  
Burns at this point evidently realized he had been tripped up and in spite of his usual fond complexion, reddened noticeably.  
Burns had testified previously that he had conferred with players on the night of the first game in Hotel Sinton at Cincinnati and had "stalled" them off on the \$20,000 that had been promised by the gamblers.  
Defense attorneys grabbed at this one slip of Burns and predicted "something doing along that line" in the afternoon session.

## COUNCIL TABLES REQUEST TO PUT OFF BRIDGE WORK

Entire Park Board Offers Resignation—License Is Granted Carnival.

Resignations of Fred F. Wettengel, chairman of the park board, and Philip Weitenbach and Dr. H. E. Brooks, the other two members of the board, were accepted by the city council in its regular meeting Wednesday night.

It was arranged that the council committees on public grounds and buildings and on streets and bridges would assume the duties of the park board until a new board has been appointed.

The city plan commission presented a resolution asking the council to defer action in regard to the construction of bridges at either Lake or Cherry streets until the commission had the opportunity of carefully investigating the matter. The resolution was read and was placed on file.

An application from the Fraternal Order of Eagles to hold a carnival in the city in the near future was read and after some discussion the council voted to grant a permit for the event. The license fee was fixed at \$50 for the week. The Barnum and Bailey and Ringling Brothers circus which is coming here Aug. 17, was charged \$100 for a license.

## NEW BULLETIN OUT FOR RETAILERS

Curbings of worthless advertising schemes, and a discussion of Saturday night closing are taken up in the first news bulletin of the Merchants Information bureau, which has been mailed to merchants in mimeographed form.

Merchants are urged to ask for the endorsement card of the chamber of commerce before investing in any publicity scheme. A facsimile of the application to be filled out by the solicitor seeking endorsement, and a sample copy of the approval certificate was contained in the bulletin.

Attention is called to the early closing arrangement of valley department and specialty stores and to the custom of most merchants in other lines closing promptly at 9:30 Saturday evenings.

Greater use of the information bureau is indicated through reports showing 100 credit inquiries by 30 merchants during May, and 122 inquiries by 25 merchants in June. Announcement also is made that a series of merchandising lectures by experts is being arranged at the vocational school by W. S. Ford.

The coming convention of the Wisconsin Retailers association also is noted and all merchants are asked to cooperate in the arrangements.

## BARNES KNOWS THE NAMES OF HIS 3,000 EMPLOYEES

Listed in the books of the A. G. Barnes circus are more than 3,000 names, including all the horses, ponies, wild animals, birds, and the people. Indicating the close attention which he gives to details, Mr. Barnes probably is the only person connected with the organization who can call every name correctly.

Recently two giant gorillas were received from Africa, and the question of naming them came up. There had been other gorillas and chimpanzees known as Satan and Congo, but something more distinctive was sought.

"Call them Mr. and Mrs. Tarzan," the circus owner ordered, and as such they will be known through life.

It is quite a task to avoid duplications in naming animals. Particularly is this true of horses, but it is a fixed rule that there must not be two names alike in the Barnes organization.

Among the employees' nicknames are numerous. There's old "Alabama," a giant, bewhiskered negro, who has been with the show so long that he had any other name he's probably forgotten it. "Slim," "Shorty," "Cookhouse," "Slim," "Right-horse Lou," and "Chicken Joe" are a sample of the designations to avoid confusion among the various "slims," "shorties," and "Joos."

The Barnes circus with its vast collection of strange wild beasts, and unusual circus acts will exhibit in Appleton Monday, July 25.

## SURVEY SHOWS LESS READING OF BIBLE

Appleton Delegates Return From Annual Walther League Convention.

Miss Emilie Runzheimer of this city returned Wednesday evening from Milwaukee, where she attended the international convention of the Walther league, which convened Monday, Tuesday and Wednesday. A. A. Grossman of Milwaukee was elected president. Other officers are A. H. Hertmann, Richmond, Va., secretary; F. A. Schack, Fort Wayne, Ind., treasurer; and E. H. Englebrecht, River Forest, Ill., field secretary.

More than 1,200 delegates were in attendance at this twenty-ninth international convention, which was formally opened Monday evening in Flankinton hall, Auditorium. The Rev. Walter A. Maier, executive secretary

of the league, welcomed the delegates to Milwaukee.

A campaign for membership was mapped out which is expected to bring the membership up to 80,000. The membership is drawn from the young people's societies of the Lutheran church in the United States and Canada. Omaha was selected for the 1932 convention.

Among the entertainment features were a boat excursion to Racine which was held Monday afternoon, an automobile tour through Milwaukee county Tuesday afternoon, an open air reception at the Lutheran high school Tuesday evening, and a picnic at Waukeesa beach Thursday.

The Rev. Walter Maier, who has made a survey of Biblical knowledge by means of a questionnaire, announced that it revealed that 80 per cent of the church people do not read their Bible daily, that approximately one-third of the Protestant denominations have no systematic Bible study. Rev. Maier claimed that the decrease in the reading of the Bible is responsible for the national breakdown of morals.

The Walther league bears the same relationship to the Lutheran church which the Christian Endeavor society bears to the Congregational.

OPEN MORE OF NEW ROAD FROM NEENAH TO OSHKOSH

Concrete construction work on the south end of Neenah-Oshkosh highway has been completed as far south as the cutoff of the Chicago and Northwestern railroad, leaving about 1 1/2 miles to be finished.

Autoists now may use the pavement all the way from Glendale corners to Snell corners, where a detour is made to the west and the remaining distance to Oshkosh covered over Vin-

land-rd. It is estimated that about three weeks will be required to finish pouring concrete and some additional time will be needed to build the shoulders of the road.

Good progress is being made in grading of the 3-mile stretch just out of Neenah. The concrete crew is to be transferred to the north end as soon as the Oshkosh end is finished. It will be late in the fall before this portion is ready.

Several owners of Appleton cleaning and dyeing establishments will attend the third annual convention of the Wisconsin State Association of Dyers and Cleaners to be held in Fond du Lac Aug. 2 and 3. More than 150 delegates are expected.

Bible Dramatization and Exhibit of Work Feature Closing Program.

The Church Vacation Bible school which has been conducted for the last five weeks under the direction of Mrs. A. L. McMillan, will close Sunday evening with appropriate graduation exercises in Lawrence Memorial chapel. An interesting feature of the program will be the dramatization of Bible stories in costume by the different groups.

Pupils of the school, of whom there are 148, were treated to a picnic Wednesday afternoon in Jones park. Games, stunts and races furnished entertainment which was followed by typical picnic refreshments.

The faculty of the vacation school consisted of Mrs. A. L. McMillan, director, Mrs. Robert Jarvis, Mrs. Edith Clark, Miss Margaret Bond, Miss Martha Hoffman, Miss Elizabeth Bond and the Rev. A. L. McMillan. They were assisted by Miss Alara Vaughn, Mrs. Barrett, Miss Cordell Stammer and Albert Thumme. Russell Hayton was pianist.

OPEN MORE OF NEW ROAD FROM NEENAH TO OSHKOSH

Concrete construction work on the south end of Neenah-Oshkosh highway has been completed as far south as the cutoff of the Chicago and Northwestern railroad, leaving about 1 1/2 miles to be finished.

Autoists now may use the pavement all the way from Glendale corners to Snell corners, where a detour is made to the west and the remaining distance to Oshkosh covered over Vin-

land-rd. It is estimated that about three weeks will be required to finish pouring concrete and some additional time will be needed to build the shoulders of the road.

Good progress is being made in grading of the 3-mile stretch just out of Neenah. The concrete crew is to be transferred to the north end as soon as the Oshkosh end is finished. It will be late in the fall before this portion is ready.

Several owners of Appleton cleaning and dyeing establishments will attend the third annual convention of the Wisconsin State Association of Dyers and Cleaners to be held in Fond du Lac Aug. 2 and 3. More than 150 delegates are expected.

Among the speakers will be J. C. Carley, St. Louis, manager of the national association; J. F. Ermisch, Terre Haute, Ind., national treasurer, and Arthur Berg, Chicago, national vice president.

J. G. Korner, Fond du Lac, is president of the state association; J. J. Normington, Stevens Point, vice president, and John J. Richmond, Oshkosh, secretary-treasurer.

## RINGLING CIRCUS COMING AUG. 17

Appleton is one of five Wisconsin cities that has been picked by Ringling Brothers and Barnum and Bailey circus for a performance this summer. Albert Butler, advance agent, visited the city Thursday and announced that the circus would show here Aug. 17. The circus will come here three days after closing a 15-day engagement in Chicago at the Peacock of Progress, Madison, Milwaukee, Fond du Lac and Green Bay are the other cities to be visited.

## CITY WATER MAINS ARE TO BE DRAINED TONIGHT

The water now being pumped is much better than that pumped a week ago and it is deemed best to empty the mains entirely and fill them with the fresh supply of better water.

## Watermelon Ways

While watermelon affords practically no nourishment it is a refreshing fruit. Served as a cocktail, salad or dessert, watermelon should be thoroughly chilled.

When the red part of the melon is scooped out and prepared in the kitchen the rinds should be saved for pickles.

### Watermelon Appetizer

Cut a slice about an inch thick from a watermelon. Remove rind and seeds and cut into circles with a cookie cutter. Put a grape leaf on a plate and on this put a piece of melon. Sprinkle with large white cherries which have been stoned. Add 1 tablespoonful of powdered sugar and top with a maraschino cherry. Chill thoroughly before serving.

### Watermelon Salad

Cut the pink part of a melon in balls. Chill thoroughly. Arrange on hearts of lettuce and pour over French cream dressing.

## NEED PAYMENTS ON HOSPITAL PLEDGES

### Money is Needed as Workmen Begin Construction of New Building.

Now that actual construction work has started on the new St. Elizabeth hospital it is important that subscriptions be paid promptly on the dates specified on the pledges, according to Major A. J. McKay, trustee of building fund. A large number of subscribers have given demand notes to the fund authorities, to be cashed when the money is needed. Other pledgers have delayed paying subscriptions because the work had not been started but had made provisions for turning over the money as it is needed. These now are asked to make the payments.

The trustee's report for the month of June indicated that \$105,281.24 had been paid in up to July 1. Of that amount \$94,046.24 was in cash, \$11,100 in Liberty bonds and \$135 in war savings stamps. Of the remainder of the \$558,588.51 pledged, \$200,000 was in demand notes and \$219,738.33 was in accounts receivable.

Total revenue in the campaign last fall and interest on moneys thus far collected totaled \$588,576.30. Expenses thus far aggregated \$13,556.68, including a payment of \$5,000 for construction work, architects fees, etc. The expense of organization and collection was \$4,088.68. The net revenue up to date is \$525,019.62.

### TRACTION COMPANY WILL MOVE OFFICE AT NEENAH

Branch offices of the Wisconsin Traction, Light, Heat and Power company in Neenah are to be moved to temporary quarters on East Wisconsin-ave. across from Valley Inn some time before Aug. 15.

This change is believed by Neenah citizens to foreshadow erection of a terminal station as planned several years ago. The company owns the property to which it is moving, and vacated the North Commercial-st. building because the lease expired. No definite announcement of building plans has been made.

## Confessions of a Bride

(Copyright 1920)

**Maid, Wife or Widow?**  
"Jordan Spence? No! The wife is not from him!"  
Chrys stopped, leaned toward me, put an arm around me, and whispered: "Please, Janie! Please do not mention him, ever again, to me!"  
"I'm so sorry, dear. I thought you had cured yourself."

"It's time I did! Nobody can be quite so cross with her weaknesses as Chrys can be. Read this!"

Sht handed me the yellow paper. It was a cable from Berlin, concerning Hamilton Certis! I didn't wonder that Chrys was depressed. A German banker, returning to his home after a trip into Russia, informed Chrys that Hamilton Certis was in a Russian prison! He was charged with plotting against the Bolshevik regime. The influence of German money had so far prevented his execution.

Certis still lives! I gasped. I perceived why I should never refer to Jordan Spence.

"Rather, Certis was alive a month ago. And in a Russian prison. It's horrible! No one can help him. Daddy says so. Daddy is half sick—he and Certis were business partners for years before the war!"

"The elegant Dr. Certis—in a dirty prison—half starved! I cannot picture him so! He was the most fastidious, the most cultured as well as the handsomest of men! How can he endure to be shut away from the refinements and the luxuries of life?"

I mused, as we walked. Dr. Certis had wooed me, madly, before Bob came home from college. He had followed me, like a shadow, when Bob was in the war, and when peace came he had fled the country. An hour before leaving he had induced Chrys to marry him on the plea that he wanted his fortune to go to his best friend's daughter, in case anything happened to him.

So Chrys the darling, Chrys the adventurous, was wedded—but never a wife. Wedded, only to become a widow! It was a secret marriage. Her friends had always regarded her as a spinster.

Jordan Spence had proposed to her, and when she had told him the truth, he had hurried off to Mexico to devote his talents to curing sick babies. That was about the most unprofitable occupation on earth, according to Daddy Lorimer.

Our last news from Certis read like a chapter from some new Arabian Nights. As a great adventurer, he had no living rival except D'Annunzio. Certis had bought a magnificent yacht from a sugar manufacturer in Honolulu, and with two Russian financiers, picked up in Hawaii, was making for Asia.

Daddy had had the news from secret service men who were watching for international spies. Certis was suspected of meeting the Russians by appointment, and of contriving with them for the restoration of aristocracy to the new democracies of Europe. Certis was more than a spy, he was a disturber of world peace—and the most dangerous man on earth.

Was Certis actually Chrys' husband? Impossible! I pinched myself, and reread the cable. I didn't believe that Chrys was sure herself, whether she was spinster, wife or widow.

## EAST SIDE RESIDENTS SEE VALUE OF ZONING

Residents of the eastern part of the city believe they have found a good example of the value of a city plan and a zoning law, and are wishing the commission could function on their behalf. Excavation is in progress on a Pacific-st. corner in a residence section and it is said that a grocery store is to be built there. Property owners in that vicinity are objecting, because they believe the location will be less attractive for their houses and values will drop. Under a zoning law permission would have to be obtained to erect a business place in a residence district.

### MR. MUSKRAT RETURNS

By Oliver Roberts Barton

Mr. Muskrat came dripping along just then. He looked so worn and worried and wet that Mrs. Muskrat hadn't the heart to scold him, but rushed toward him at once. "Oh my love, where have you been?" she cried anxiously.

"Been!" panted Mr. Muskrat. "I haven't been! I was taken. What do you think! Old Man Flood pulled the ice-stoppers out of all creeks and the whole kaboodle of them rushed into Ripple Creek at once. I saw what was going to happen and was rushing to help you when Old Man Flood pulled me into the water."

When I passed our front door he had hold of me tight and wouldn't let me stop at all. He reached out and grabbed everything he could get his hands on and pulled it into the water. All the time he was roaring like the Fourth of July. My but I am glad that you and the babies were out of his reach.

"But we weren't," corrected Mrs. Muskrat.

Muskrat. "The high water got into our house and nearly drowned us all. This lady saved us." She pointed at Nancy.

"Mr. Muskrat seemed surprised. He hadn't noticed that anyone else was present, he was so upset and excited and tired and a few other things. "Thank you very kindly," he said with a bow.

"Oh, don't mention it," said Nancy.

"Sprinkle-Blow!" cried Mr. Muskrat. "Where is he? I should like to tell him about this outrage."

Before Nancy had time to answer, the fairyman himself came around a corner and who should be beside him but that rascal, Jack Frost.

"Oh, goodness!" shivered Mrs. Muskrat, cuddling her children.

"Brrrr!" shivered Mr. Muskrat, for he was awfully wet and Jack's chilly breath nearly froze him.

Mr. Sprinkle-Blow looked worried to death.

## SUMMER SCHOOL IS MONEY MAKER FOR TRAINING SCHOOL

State Aid Nearly Pays Expenses—Lefevre Pigeon Wins Long Flight.

Kaukauna.—The summer session of the Outagamie County Training school now in progress will cost the county nothing. In fact it will put a few dollars in the county treasury.

In the first place, the state pays the sum of \$333.55 as teachers' institute aid. Then the 54 students pay book rent of \$2 each, amounting to \$108.

Ten students from other counties pay \$45 in tuition. This makes a total income of \$886.55. The only cost of the summer session is the salary of the faculty and the teachers.

The present session is the first summer school to be held in the new training school building. Of the 54 students, 31 are teachers in Outagamie county, 5 are graduates of the training school who finished the regular course in June, 8 are high school graduates who desire to do emergency teaching next year and 10 are teachers in neighboring counties.

Instruction in the various courses is being given as follows: Miss Dora Behrend, manual training, methods in reading and language, methods in arithmetic and geography, methods in seventh and eighth grade arithmetic; Principle W. P. Hagman, English literature, American literature, algebra, school management, library methods; A. G. Meating, course in modern history, American history, general science, theory and art of teaching.

**Kaukauna Pigeon Wins**  
A young female pigeon, owned by Attorney W. Lefevre won the 500-mile race from Walnut Ridge, Ark., to Green Bay. This was the longest race staged by the Green Bay pigeon club during the last ten years.

The winning bird was released at Walnut Ridge at 5 o'clock last Saturday morning and arrived at the Green Bay loft at 1:32 Sunday afternoon.

Its flying time was approximately 22 hours and 52 minutes and the bird traveled at an average speed of a little more than 25 miles per hour. The official speed has not yet been computed.

It is believed that the birds were seriously retarded by local thunderstorms and heavy winds which they encountered enroute as some of the contestants had not returned to the lofts even as late as Wednesday night.

Two birds owned by Jule Noel of Green Bay took second and third by arriving together at 8 o'clock Monday morning. Fourth and fifth places were taken by birds owned by Feldhausen brothers of Green Bay. There two birds came in on the stroke of 12 o'clock, Monday noon.

Twenty-seven pigeons took part in the race and several of them have not yet returned. Owners of the birds are somewhat concerned over their prolonged delay.

The young bird's achievement makes the second first prize won by Mr. Lefevre this season. Besides that, he has taken the title for the fastest average speed for the year's flying. He has won two second prizes, one third and one fourth prize.

## WINDOW PEEPER IS TAKEN INTO COURT

Railroad Brakeman Shows Fight When Pursued—Assist in Dedication.

Kaukauna.—Charles Golchais peeped through the windows of justice court Wednesday morning.

Richard Wilpolt and Andy O'Connell were going home between 9 and 10 o'clock when they saw a man crouching in the shadows of a house not far from the brewery. They watched him as he sneaked from window to window in an attempt to get a glimpse of the interior. Then they tried to steal a march on the "peeping Tom" but he caught sight of them and ran.

They finally overtook him in a corn field and recognized him as Golchais, a railroad brakeman.

Golchais showed fight and drew a knife on Wilpolt, and O'Connell complained to the police. Golchais was arrested on a charge of disorderly conduct. He was taken before Justice of the Peace Nick D. Schwin and paid a fine and costs amounting to \$7.75.

## NEGLECT OF BLIND IS STATE DISGRACE

Blaine Answers Association Which Criticized State Blind Aid Law.

Madison, Wis.—That the neglect of the blind is a disgrace and a shame to the state of Wisconsin is the declaration of Governor John J. Blaine today in a letter to the Badger State Advancement Association for the Blind, Milwaukee, answering those who have bitterly criticized him for signing the bill providing for the care of the blind in Wisconsin. He predicted that better conditions and care of the blind will result through the provisions of the recent legislation which he approved.

"The misapprehension regarding this bill, I think, is unfounded," said Governor Blaine in his letter today. "Your particular objection that the bill will interfere with your association, neither your association, nor any other voluntary association, will in anywise be interfered with by the provisions of the bill."

"The matter that has been over-

looked in the discussion of this bill is the fact that all the blind of the state do not belong to the association, there is that great body of blind unorganized, who for all we know would be unknown if something is not done to aid them in aiding themselves. The blind are scattered over the entire state, and there is that great body of unorganized blind, the neglect of whom would be a disgrace and shame to the state of Wisconsin. If the details of the condition of the unorganized blind were written as graphically as the facts justify nothing short of a scandal would occur."

Edward Waom and son returned to Moline, Ill., after working on the sugar beet fields in this community. They will return in about sixty days to harvest the crop.

Charles Martin of Custer, Mont., made a brief visit here Monday, calling on B. J. Graft.

**HUGE INCREASE IN SWITCHING CHARGES**

(Special to Post-Crescent.)  
Madison, Wis.—The railroad commission has authorized the Chicago & Northwestern to file tariffs for a switching charge of not to exceed \$7 per car between the Wisconsin & Northern and the St. Paul roads. The old rate has been \$2.50 per car.

The commission, in another opinion, ordered the Soo line to assume the switching charges from the Stanley, Merrill & Phillips railroad on pulpwood shipments from Polleys to the Appleton district.

Madison, Wis.—Announcement was made at the executive office today that there will probably be no more pardon hearings before September. ## PIONEER SOCIETY IS 50 YEARS OLD

Elaborate Celebration Planned  
by County Settlers for  
Next February.

Otagamie County Pioneer association will be 50 years old Feb. 22, 1922, and plans are being made for an elaborate celebration. Heretofore the work of planning the annual celebrations devolved upon one or two of the officers, but committees will have charge of the next program.

The officers are continually adding new names to the membership of the association and it is their intention to have the enrollment at its highest point at that time. Practically all of the charter members and many of those who devoted much of their time to the organization in the early days have passed away and a large portion of the membership is now composed of children of the original pioneers.

The program has not yet been definitely outlined, but it is almost certain the annual address will be delivered by an outside speaker. The president of the organization, Mayor J. A. Hawes, will also deliver an address and incidents relating to their early experiences will be related by many of the older members.

Heretofore the meetings have been held in Odd Fellows hall but the chances are larger quarters will be secured for the coming anniversary. An old fashioned pioneer dinner served by the ladies will be one of the features of the day.

## LOCAL YOUNG PEOPLE LEAD AT CAMP BYRON

Appleton Epworth League members attending the Byron camp meetings won first place for attendance. The delegation also took second place in a stunt night feature when a visit of President Harding was staged.

## PARKS STREET CART BACK OF AUTO; WRECK FOLLOWS

Mark Catlin got mixed up with a street sweeper's cart in backing out his automobile from the curb in front of Schweitzer & Langenberg Co. shoe store Wednesday afternoon. The street sweeper left his cart immediately back of the attorney's car with the handle of the broom resting against the spare tire and when Mr. Catlin reversed his engine there was something doing. Both the car and cart were slightly damaged.

## SHEBOYGAN LETS PARK SLIP AWAY; SORRY NOW

The city of Sheboygan permitted Born park, located in the heart of the city get away from it and now is regretting the fact. The visitors from that city Sunday envied Appleton for the new park it acquired and while the next saengerfest is to be held in Sheboygan the singers confessed frankly they were up against it for a park that would accommodate the crowd. The Born park where all the former saengerfests were held, recently was sold and has been platted.

No Blueberries  
Blueberries and blueberry pie will be missed this year by those who cherish this fruit. There are a few berries on the market and the crop is reported to be almost a total failure because of the dry weather. A few berries are being picked in the northern part of the state.

## DRUGSTORES CUT PRICES OF SODAS AND SUNDAES

Several drugists who operate soda fountains in connection with their regular drug business have voluntarily reduced the price of ice cream sundae and syrup sodas and sundaes from 17 cents to 11 cents in keeping with the downward tendency of prices generally. Fruit sodas and sundaes remain at their former price, 17 cents. Two cents of the 17 and 1 cent of the 11 go to the government as revenue. The cut made by the drugists is not general in the city and they have the distinction of being the first soda fountain owners in the state to reduce their prices. In Chicago an unsuccessful fight has been waged all summer against soda fountain operators to get them to cut their scale of prices.

## Mayor Is Glad To Receive Suggestions From Citizens

Advice From Taxpayers Has Assisted in Solving Many  
Knotty Problems.

Mayor J. A. Hawes welcomes suggestions on all municipal questions and receives them daily. They are made by no particular class of persons and most of them are worthy of careful consideration.

As a usual thing suggestions reach the aldermen first for the reason they are closer to the people than anyone else. However, citizens frequently take it upon themselves to call upon the mayor or some other city official to express their opinion on certain matters. Suggestions on the part of a committee of the chamber of commerce had much to do in the appointment of a city planning commission. The ordinance relating thereto was passed during the commission form of government which passed out of existence before the appointments were made.

Mayor Hawes said his attention was called to it by the committee in question and after informing himself thoroughly on the ordinance and all matters concerning it made the appointments.

Several good suggestions have been made to the mayor by prominent citizens concerning the solution of the bridge problem which he has under consideration. They cover all three propositions: Lawest bridge, Cherry bridge and Lake-st viaduct. Each

has its good features and will receive attention.

The purchase of Pierce park was in a measure due to the suggestions of interested citizens and to the foresight of some of the aldermen. The former park board made many good suggestions before being succeeded by the new planning commission.

The school problem is one on which the mayor and aldermen are continually receiving suggestions on the part of interested taxpayers who bear the financial burden. They will all be taken into consideration in solving the question.

Suggestions of taxpayers concerning streets, sewers, water service and other municipal matters, regardless of location, are always timely and often bear more weight than the person making them realizes.

## Teachers to Meet

## NOTICE!

(Information to the Public in general)

Whereas we have been continuously probed with questions concerning the controversy between the carpenters and Association contractors, we wish to inform the public that the scale of wages of building crafts for this year already settled is as follows: Plumbers, \$1.00 per hour. Tinner, 75c per hour. Painters, 75c per hour. Shop Carpenters, 60c to 75c per hour. Masons settled as far as wages are concerned, \$1.00 per hour. Now is 80c per hour too much for outside carpenters who furnish their own tools and considering lost time throughout the year?

If you want carpenter work done, Telephone 1551 or 2081. All our carpenters are covered by compensation insurance. We will supply you with competent carpenters at 85c per hour.

## LACK OF MATERIAL HALTS BUILDING WORK

C. R. Meyer & Sons Co. resumed building operations on the addition of the Elk club Thursday morning after half a day delay caused by the lack of stone. The company is receiving stone from Elkhart Lake at the rate of 30 carloads a day, but practically all of it is being delivered at the new St. Elizabeth hospital. The Elkhart plant was unable to make a shipment Wednesday because of an accident, but managed to get a carload for the Elk addition here early Thursday morning which made it possible for the crew to resume work on time.

A delay of three days was caused last week by the failure of iron to arrive from Chicago. The outside work of the new addition will be completed within a week and about two weeks will be required to finish the interior. As only the basement is to be built this year it will be protected by a temporary wooden roof.

## Back Feel Lame, Sore and Achy?

Are you lame every morning? Do you drag through the day with a steady nagging backache—evening find you "all played out"? Probably your kidneys are to blame. Hurry, worry, lack of rest and a heavy diet, all tend to weaken the kidneys. Your back gives out, you feel depressed and suffer headaches, dizziness and kidney irregularities. Don't go from bad to worse. Use Doan's Kidney Pills. Home folks recommend them. Ask your neighbor!

Here's an Appleton Case  
Oliver G. Fazel, 772 Second Ave., says: "I met with an accident which laid me up and affected my kidneys and bladder. My back ached and the kidney secretions passed with a burning sensation. The medicine I was taking seemed to give me no relief. A friend advised me to try Doan's Kidney Pills, so I decided to get some. Three boxes made me well." adv

# GIBBONS SAYS HE WILL BEAT GEORGES QUICKER THAN JACK

Minnesota Battler Believes He Can Hit as Hard as the Heavyweight Champ.

(This story, the first of a number that will appear before the Gibbons-Carpenter fight in October, was written for the Post-Crescent by Tommy Gibbons, challenger for the world's light heavyweight title and expected to be the next man to fight Champion Jack Dempsey. Gibbons will write for Post-Crescent readers frequent stories of his training for Carpenter and for the Dempsey fight when that match is made.)

By Tommy Gibbons  
Oskosh, Minn.—Getting the match with Georges Carpenter for the light heavyweight championship of the world is a stepping stone to a fight with Jack Dempsey and the heavy weight title.

And it is the weight crown that holds the real magic for me. I regard the Frenchman as the next best man to Dempsey. After I win from him, and I am sure I will, and decisively, Dempsey will have to fight me.

It is much better that I fight Carpenter before being matched with the champion.

The match will be a test for me. It will give the public a real line on me.

**His Prediction**  
If Carpenter fights me the same way he did Dempsey, the bout won't go four rounds. If he adopts a different style, it will take me longer to beat him just as it would have taken the champ under different circumstances.

Carpenter fought Dempsey wrong. When he mixed it with him, he cast aside any chance of victory he may have had.

He had no defense for the champion's infighting. He was a baby in the arms of the powerful Dempsey.

But my' how game he was. He showed a fighting heart that is seldom equaled in the roared ring.

In that second round he proved he was a terrific slugger. What he lacked was a combination of punches to follow up the lead he had started by rocking Jack with his right.

Instead of being able to bore on in with his left, he had to keep drawing back with his right to cock it for his next punch.

When one fighter analyzes another, he puts himself in his place and figures what he would do under similar circumstances.

**Analysis of Fight**  
But as I sat at the ringside that day I had a two-fold purpose. I was studying both men—Carpenter, the man I am matched to fight in October, and Dempsey, the slugger whom I will eventually meet.

I saw in Carpenter a wonderful athlete, a clever boxer, with punching power only in his right, a novice at infighting, but a man who possesses a heart that is game to the core.

In Dempsey I saw a man who is a fighter from his toes up, willing to take a punch in order to give one, and marvelously strong. He wasn't as fast on his feet as I had expected him to be. He keeps set always to deliver a knockout blow.

Dempsey is a spot-picker like myself. He fights the midsection of his opponents. That is what gets the results in knockout fighting.

Some time ago I went to the University of Minnesota to see a human body dissected in order to learn first hand the exact location of the most vital nerve centers.

**A Spot-picker**  
Those nerve centers are the spots I pick and land on.

While the finishing blows in most of my 12 consecutive knockouts this year have been to the chin or jaw, it was a well-placed body sock that started my opponents to the canvas.

When you know the spots, knocking a man out is like proting buttons. You keep pressing them until you get the combination that turns off the lights.

I have had 12 fights during my ring experience. Of them but 22 have been knockouts. I've piled up 12 of them in the last six months. Until this year I always figured I was a clever boxer, but not a puncher.

While it may sound foolish for me to say I can punch as hard as the champion, I believe in my own heart that I can.

And because I am faster than Dempsey, his equal at infighting, a better boxer and just as hard a puncher, I think I can knock Carpenter out quicker than the champ did at Jersey City.

**"BLACK SOX" KEEP UP FIGHT ON "SQUEALER"**  
Chicago, Ill.—The "Black Sox" defense returned to court to make another attempt to "get" Bill Burns.

Burns, the state's star witness against the seven former White Sox idols charged with selling out the 1919 world series to "sure thing" gamblers, again withstood the barrage of questions hurled by the defense attorneys. The defense realized, as court opened today that unless Burns' damaging story of which Cincinnati won the world's classic was shattered, the state had gained a smashing victory.

Two of the most capable of the "Black Sox" lawyers have already tried in vain to make Burns repudiate part of his early testimony. The witness has been caught up on some minor points but the testimony vital to conviction has stood.

# Big Hands, Not Glasses, Make Toporcer Diamond Star

George Toporcer and His Baseball Hands

George Toporcer's hands—not his spectacles—are certain to land him back in the majors next year.

His mitts are uncommonly large. They resemble a shovel when he is scooping up the bouncers.

Big hands made Honus Wagner one of the surest infielders the game has ever had. They are any ball-players' biggest asset.

When Toporcer jumped from an unknown sandlot to the St. Louis Cardinals last spring and made good he received a flood of publicity because he wore glasses.

Bespectacled infielders in the big leagues are rare birds.

He made good with the Cards and held down the second base job until Milton Stock, holdout, returned to the fold.

Of course Toporcer is not as good a player as Stock, yet, but he will be in another season unless all signs of good players fail.

When Stock returned and got into contention Ricker sent Toporcer back to Syracuse in the International League. Sam Broadon, owner of the Syracuse club and it serves as a farm for him.

The youngster uses his head in trapping bouncers. He doesn't get set and let a hard hit roller swoop over his shoulder. He figures out the ball the instant the batter hits it and if there is a sign of it hopping he hops with it.

**Braves Draw Big Crowd**  
Hopes that Fred Mitchell's Braves may give both the Pirates and the Giants the backwash before October have made Boston a real baseball town again.

Fans are flocking to the ball yard like bees to a hive.

A crowd of 30,000 gathered at the Braves field the other day to see the Mitchellmen lose and win in a double diamond bill with the St. Louis Cardinals.

That is the biggest baseball assemblage they have had in Bean Town since the days of George Stallings' miracle team of 1914.

Braves field is the largest baseball plant in the world.

It was built after the Stallings wonder team started the baseball world seven years ago. Poor teams since then have never drawn capacity crowds.

This year under Mitchell the team that is made up largely of castoffs from New York and other clubs is marching pennantwards once more.

The tide has turned in Boston and the fans are coming out with it.

**Risk Is Slight.**  
Willie Hoppe's announcement that he would defend his billiard title in matches other than those played in the annual tournaments has put a new interest in the green cloth game.

He has set his price high—\$1,000 for every 1,000 points played—so as to keep the publicity seekers out.

The billiard title has lost some of its original luster since Hoppe was ambushed back of the national tournaments.

His new decision to defend his title

**Watching The Scoreboard**  
Yesterday's hero: Bobby Yeach. He doubled in the tenth inning driving in the run that enabled the Tigers to beat the Senators 2 to 1.

Elmer Smith's homer was the only tally made by the Indians off Rob Shawkey and the Yankees went into first place with a 7 to 1 win.

Jeff Pfeffer pitched for the Cardinals against his old team mates, the Robins, and beat them 8 to 5. Hornsby got a single, a triple and a homerun.

Sisler's double tied the score, winning the Red Sox in the ninth inning and the Browns won out in the twelfth 10 to 9.

Roush's double in the seventh inning gave the Senators a 2 to 1 victory over the Giants.

Maranville's double in the third inning and Carey's homer in the fifth gave the Pirates two runs and a 2 to 0 victory over the Braves. Cooper was invincible.

The Cubs and Phils split one. The Cubs won the first 10 to 0 and dropped the second 8 to 0.

The White Sox beat the Athletics 3 to 2 in ten innings. It was the fifth extra inning game won by the Sox in the last ten days.

# DEITRICH LEAVES KAUKAUNA SQUAD; VAN GOTHEN BACK

Oskosh Fans Pulling Hard for Electric City to Wallop Appleton.

Deitrich of Racine baseball fame will not hurl for Kaukauna next Sunday and Van Gothen will get the rubber back again. A definite reason for Deitrich's withdrawal, after it had appeared that he would remain with the team the rest of the season, has not been made known but it is said the Racine people of the industrial league refused to part with him.

Whether this will have a noticeable effect on Kaukauna's performance Sunday can only be conjectured. Oskosh seems to think it will. At any rate, the Overallers offered to lend Stenenson to the Electric City for the day's game. The proffer was probably more sentimental than intentional as it is an understood rule of the league that exchanges of this sort are barred.

It is reported that Kimberly will not play at Oskosh next Sunday owing to the temporary lack of grandstand facilities. The old grandstand was condemned some time ago and the new one is under construction. Kaukauna expects the contingency to swell the crowd of fans and she counts on her own men. There is little doubt but Oskosh would like to see Appleton get a tumble as the Brandts are pressing the Overallers rather hard lately.

The Kaukauna management is getting things ready for a big day. The diamond is being repaired and improved as much as possible and the outfield has been mowed.

# Sport Views And News

Nothing will be left undone by Lawrence college athletic authorities this year to stir up an interest in football that has not been known here for years. All summer Coach McChesney and members of the "I" club have been lining up recruits for the gridiron eleven and they are confident of having a wealth of material to pick from when the season opens.

**Horning In.**  
With so many of the veteran pitchers going poorly this summer many young fellows are getting a chance to show their wares.

Practically every club has some youth on its pitching staff who is horning into the win column regularly.

Just who the best youngster to come up this year is isn't fully proven yet.

We would say that Glazner of the Pirates occupies the pedestal just now. And on the same team the Indian, Yellow Horse, isn't far behind.

**Must Fight.**  
Miss Cecil Leitch, the English Babe Ruth of the golf course, is going to follow Suzanne Lenglen, the French tennis star, to America in quest of titles.

Supreme at home, it will be interesting to see if they hold their athletic prowess on strange links and courts.

While it is an almost invariable rule that stars play their best among home crowds these two particular women seem to so far outclass our own champions that they will clean up while on their visit.

Miss Leitch drives the ball as far as the men stars of golf. She seems to absolutely lack golf nerves. The same is true of Miss Lenglen in tennis.

We're going to make them wel come but they will have to fight hard to win over here than at home.

**MIDDIES HAVE SECOND DEMPSEY IN LEXESKY**  
Annapolis, Md.—Spike Webb, the boxing instructor at the Naval academy, claims to have a second Jack Dempsey in St. P. Lexesky, a member of the new fourth class at the Naval academy and a Nebraskaan. Lexesky has done much boxing in the middle west, particularly in St. John's college, Delafield, Wis., and has a big reputation as a schoolboy athlete.

Webb says his resemblance as to both face and build to the champion is remarkable. The lad is five feet and eleven inches in height and weighs 176 pounds. His chest and arm development is remarkable, carrying out still further his resemblance to the world's greatest fist fighter.

**MERCHANTS AND COMBINED LOCKS TO PLAY ON SUNDAY**  
West End Merchants baseball team will play the strong Combined Locks team of the Industrial league at Combined Locks Sunday afternoon. That game probably is one of the hardest on the Merchants' schedule.

The west end team has games booked for every Sunday until September. It will play Black Creek, Onondaga Indians, Iola and Clintonville, among other teams, before the end of the season.

**COP-PUGILIST WILL FIGHT IN BROOKLYN**  
Brooklyn—Besides the 15 round championship battle between Joe Lynch, the bantamweight title holder, and Pete Herman of New Orleans at Ebbets field Monday evening, July 25, there will be two other 10 round battles. Henry Darnelle, the "fighting cop" of Washington, D. C., will make his debut as a professional boxer in one of the contests. Matchmaker Tex O'Rourke is hunting up a man to box Darnelle.

**NEW LONDON CATCHER IS WITH MILWAUKEE BREWERS**  
Songstrock a young catcher receiving a trout with the Milwaukee Brewers in the American association, made a favorable impression on Milwaukee fans Wednesday when he walked a single to center in his first time at bat in fast company. Songstrock is a New London boy who has been catching for the Edison team. He is one of the best backstops in the valley league and his friends are pulling for him to make good with the big fellows. He is one of several valley leaguers who have gone into professional baseball and have made good.

# BUT ONE ERROR THIS SEASON

JOHN "STUFFY" MINNIS

If John "Stuffy" Minnis were called the best first baseman in the major leagues few arguments would be started.

For "Stuffy" is just about that. So far this year he has handled more than 750 chances with but one error. His fielding average is .999.

He led the first basemen of both leagues in fielding in 1920 with an average of .996. His record in 118 games was 1556 putouts, 91 assists and 7 errors.

# FRANCE IS SENDING SUPER-WOMAN HERE

America's Tennis Stars Are Preparing to Meet Wonderful Invader.

By Henry L. Farrell  
By United Press Leased Wire  
New York—France lost her superman when Georges Carpentier went down. She is now pinning her national pride on her super-woman, Mile. Suzanne Lenglen, the queen of the tennis courts.

Uncle Sam, to meet the invasion of one as superb in her line as Carpentier was supposed to be in his, has called back to the courts two of his greatest, Mrs. May Sutton Bundy and Miss Mary K. Browne.

The two great Californian women are here now practicing daily to get in form to defend American honor against an invader that records prove to be almost invincible.

Both Mrs. Bundy and Miss Browne contradict the popular theory that a woman must talk. Neither will say a word on what they are going to do in the national championships at Forest Hills, starting August 15, when they are to meet the French girl wizard.

Several officials of the United States Lawn Tennis association and many tennis fans watched Mrs. Bundy play at Forest Hills. They agree with the reports coming from the coast that she seemed close to the game of old that ranked her as one of the greatest woman players ever produced.

**HEARING ON GAS RATES IS HELD AT NEENAH**  
Neenah succeeded in inducing the Wisconsin railroad commission to change the meeting place of the hearing on increased gas rates from Menasha city hall to Neenah city hall.

Hearing on the Wisconsin Traction Light, Heat and Power company's application began at 10 o'clock Thursday morning with a large number of Twin City residents present to voice opposition to higher rates.

Congressman David G. Classon of the Ninth district expects to remain in Washington all summer while Congress undertakes revision of the tariff and tax laws according to the Republican platform. He is without a secretary but manages to follow the tariff bill debate closely as well as attend to his office duties. On Tuesday Mr. Classon met with the house judiciary committee of which he is a member, to consider legislation relating to the state of New York.

# RUSSIA WANTS BID TO WORLD MEETING

No Chance for Invitation Until Soviets Release American Prisoners.

By United Press Leased Wire London.—Soviet Russia is hopeful that she will be invited to attend the Washington disarmament conference, it was learned here Thursday.

Preparations already have been made for dispatching Foreign Minister Tchitcherine and Under Secretary Zinovieff to Washington if the invitation is forthcoming.

Russia's hopes are based on two matters.

The first is the belief that President Harding's proposal really is an attempt at securing permanent world peace. Russian leaders contend that this is the Russian goal also.

The other is that the far East problem is one of the most urgent confronting Russia. Soviet officials hope that such a conference will frustrate Japanese encroachments in the Far East republic which they declare has created virtually a state of war between Russia and Japan.

Must Release Prisoners Washington, D. C.—Russia will have to bring about a radical change in her methods before she could even hope to be welcomed at the Washington disarmament conference, it was said authoritatively Thursday.

The present Soviet regime is at present the only one which could be called to the conference, the officials admitted, but they pointed out they had harnessed all dealings with that regime until Americans held prisoners had been released and the regime consented to live up to its promises.

# SPIGOT IS CLOSED BUT MONEY LEAKS OUT AT BUNGHOLE

(Continued from Page 1)

A billion dollars eventually as it is a progressive thing with \$100,000,000 to start with.

Mr. Harding has asserted his leadership somewhat to the discomfort of some elements in the senate but to the gratification of others. His closest friends would welcome another trip to the capitol. They insist that the senate has no leaders powerful enough to override the wishes of any bloc or group. The demands of different sections of the country have upset the traditional influence of the party leader. The call to party is not as strong as it used to be. Mr. Harding is being told he is the only man who can lead the senate out of the wilderness of its variegated interests and force action on the big questions of taxation and revenue.

No Higher Taxes. As it looks now about all that has been accomplished in a general way by government economy has been the prevention of higher taxes than last year. Were it not for the efforts at economy made through the budget committee and the appeals of President Harding to his cabinet the government would be faced with the necessity of increasing rather than decreasing the tax rate for the calendar year of 1921. Unless some drastic cuts are made in government expenses on the one hand, accompanied by a few vetoes of congressional desire to spend more money, the tax rate will remain unchanged. This, the political advisers of the administration fear, will react against them.

They promised a gradual reduction can be put into effect so that a convincing demonstration is made of the Republic's purpose to keep its pledge. Republicans themselves admit they will enter the congressional elections with a gloomy prospect. President Harding's intervention in the senate situation is again regarded as inevitable.

Chicago packers, through a fictitious bank on which "less than 2 percent interest, if any" was paid the state. Packers paid 7 and 8 percent for the money.

The so called bank was headed by Curtis and his brother, Senator Edward Curtis, who died a year ago. Both were close political and business associates of the governor.

Although the loans to the packers should have netted close to \$2,000,000, the affairs of the bank, when liquidated at the death of Senator Curtis, failed to show that amount of assets and neither could the money be found in the senator's estate. What became of the interest will probably be brought out at the trial.

The certificates of deposit held by the state on the "fictitious bank," the grand jury report stated, failed to carry any stipulation as to the amount of interest to be paid to the Illinois treasurer.

The former of the William Hale Thompson branch of the Republican party in Illinois will be brought to the support of Small. The governor had the backing of the Thompson faction during the election. The prosecution will be in the hands of Republican officials elected who are adherents of the branch of the party bitterly opposing Thompson.

# SMALL IS URGED TO RESIST ARREST

(Continued from Page 1)

millions of dollars of public money for their own personal gain.

Indictments charging the trio with embezzlement of public funds, and conspiracy to defraud, were voted by the Sagamon county grand jury after a two weeks' investigation.

"I am absolutely innocent of every charge they make," the governor declared in a statement to the people of Illinois.

The executive said he was not afraid of the final verdict.

The alleged irregularities were found during terms served by Small and Sterling as state treasurers.

Chicago packers, through a fictitious bank on which "less than 2 percent interest, if any" was paid the state. Packers paid 7 and 8 percent for the money.

The so called bank was headed by Curtis and his brother, Senator Edward Curtis, who died a year ago. Both were close political and business associates of the governor.

Although the loans to the packers should have netted close to \$2,000,000, the affairs of the bank, when liquidated at the death of Senator Curtis, failed to show that amount of assets and neither could the money be found in the senator's estate. What became of the interest will probably be brought out at the trial.

The certificates of deposit held by the state on the "fictitious bank," the grand jury report stated, failed to carry any stipulation as to the amount of interest to be paid to the Illinois treasurer.

The former of the William Hale Thompson branch of the Republican party in Illinois will be brought to the support of Small. The governor had the backing of the Thompson faction during the election. The prosecution will be in the hands of Republican officials elected who are adherents of the branch of the party bitterly opposing Thompson.
